

Privacy Policy

This Privacy Policy ("Policy") is a legal agreement between you, the user of the mobile application ("User"), and Andrew Medvedev ("Publisher"), the developer of the mobile application. By using the mobile application, you agree to the terms and conditions outlined in this Policy.

1. Information We Collect

As the Publisher, we may collect and process the following information about you:

1.1 Personal Information: We may collect personal information such as your name, email address, and other contact details when you voluntarily provide them.

1.2 Non-Personal Information: We may collect non-personal information, including but not limited to device information, operating system, and usage data, to enhance and improve our mobile application.

2. How We Use Your Information

2.1 Personal Information: We may use your personal information for communication purposes, such as responding to inquiries, providing updates, and offering customer support.

2.2 Non-Personal Information: We may use non-personal information for analytics, statistical analysis, and to improve the functionality and user experience of the mobile application.

3. Data Storage

We will take all reasonable steps to ensure that your data is treated securely and in accordance with this Policy. By using the mobile application, you consent to the storage of your personal information on our servers.

4. Data Security

We implement reasonable security measures to protect your personal information from unauthorized access, disclosure, alteration, and destruction. However, no method of transmission over the internet or electronic storage is completely secure, and we cannot guarantee absolute security.

5. Use of Face Data

When you upload a photo, the app uses it to generate a personalized digital character that reflects your appearance and style. To do this, the photo is analyzed to identify visual traits such as facial features, accessories, and general style.

We do not store your photo on our servers. The image is processed temporarily and only for the duration of the recognition process. Once the analysis is complete, the photo is immediately discarded and cannot be recovered.

We do not share face data with third parties beyond the processing purpose described above. No face data is stored or used for tracking, profiling, or advertising.

6. Third-Party Disclosure

To provide these features, we may use third-party services such as OpenAI or xAI for image understanding and description. These services receive the photo data only during processing and do not retain or store the photo unless explicitly stated in their own privacy policies.

The Publisher will not sell, trade, or otherwise transfer your personal information to third parties without your consent. However, we may share non-personal information with third parties for analytical or marketing purposes.

6. Third-Party Links

The mobile application may contain links to third-party websites. We are not responsible for

the privacy practices or the content of these websites. Please review the privacy policies of such websites for more information.

7. Changes to the Privacy Policy

We reserve the right to update and revise this Privacy Policy at any time. Any changes will

be effective immediately upon the posting of the revised Policy. Your continued use of the mobile application signifies your acceptance of these changes.

8. Contact Information

If you have any questions or concerns about this Privacy Policy, please contact us using contact form on <https://rjayone.github.io>

9. Disclaimer of Third-Party Actions

The Publisher is not responsible for the actions of third parties, including any unauthorized use or access to your information by such parties.

By using the mobile application, you acknowledge that you have read, understood, and agree to the terms and conditions of this Privacy Policy. If you do not agree with these terms, please do not use the mobile application.

In addition to the terms set out in the standard “LICENSED APPLICATION END USER LICENSE AGREEMENT” (can be found here

<http://www.apple.com/legal/internet-services/itunes/appstore/dev/stdeula/>), users agree to the Application collecting certain detailed user information indicated in EULA & PRIVACY POLICY below.

Firebase

Publisher’s uses the Google Analytics tool Firebase in order to carry out analysis on Information which is gathered by Publisher’s Apps. App Identifiers and other Information which Publisher’s gather are provided to Google in order to enable them to carry out data analysis. Any information (including App Identifiers) which are provided to Google will become subject to Google’s privacy policy which is located here:

<http://www.google.com/privacy.html>. For further information on how Google’s Firebase analytics tool uses data, please see the site “How Google uses data when you use our partners’ sites or apps”, (located at <http://www.google.com/policies/privacy/partners/>).
